PROFESSIONAL SUMMARY

Junior Full-Stack Developer with hands-on experience building and deploying complete MERN stack applications — from responsive React frontends to RESTful Node.js/Express backends with MongoDB. Experienced in implementing user authentication (JWT), persistent data storage, and real-world deployment across Vercel, Netlify, and Render. Strong foundation in modern JavaScript (ES6+), component-based architecture, and clean API design. Eager to contribute to a product team and continue growing as a full-stack engineer.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, React Hooks, React Router

Styling & UI: Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST API Design, JWT Authentication, bcrypt

Database: MongoDB, Mongoose ODM, CRUD Operations, Data Modelling

Tools: Git, GitHub, VS Code, Vite, Postman

Deployment: Vercel, Netlify, Render

PROJECTS

Sneaker E-Commerce Platform

MongoDB · Express · React · Node.js · JWT · Vercel / Render

- Full-stack MERN application with user registration, login, and JWT-based authentication.
- Product catalogue stored and managed in MongoDB with Mongoose; supports dynamic filtering and routing.
- Persistent cart and order management — orders saved to the database per authenticated user.
- RESTful API built with Express handling auth, products, and order endpoints.
- Responsive React frontend deployed on Vercel; backend deployed on Render.

Full-Stack To-Do Application

MongoDB · Express · React · Node.js · JWT

- Complete MERN app with user authentication — register, login, and protected routes via JWT.
- Each user's tasks are stored in MongoDB and scoped to their account.
- REST API with GET, POST, PUT, and DELETE endpoints for full task management.
- Clean React frontend with component state management and real-time UI updates.

Space Tourism Website

React · Tailwind CSS · Vite · Vercel

- Fully responsive, visually rich UI with interactive navigation and section transitions.
- Built with React and Tailwind CSS; focused on modern design and polished UX.

Personal Portfolio Website — *[daniels-port-folio.vercel.app](#)*

[React](#) · [Vite](#) · [Tailwind CSS](#) · [Vercel](#)

- Showcases projects, skills, and contact integration; fully responsive across all devices.
- Fast load times thanks to Vite bundling and Vercel CDN deployment.

EDUCATION

Michael Okpara University of Agriculture, Umudike

B.Sc.Ed. Agricultural Science Education | 2018 – 2023

Self-taught MERN stack developer; transitioned into full-stack engineering independently.

ADDITIONAL STRENGTHS

- End-to-end project ownership — designed, built, and deployed full-stack apps independently.
- Strong debugging skills across the full stack: API errors, auth flows, database queries, and UI issues.
- Fast, self-directed learner with a consistent record of completing and shipping real projects.
